Subject: How to send substitute drawings after initial electronic filing?

Hello,

I used the electronic filing system to submit my utility patent application:

Application number: 09/683,685,
 Filing date: 02/03/2002,
 GRP ART UNIT: 2652
 Confirmation no: 3106
 Filing receipt: *OC000000007467194

Recently I received a letter that says the following:

...
The required item(s) identified below must be timely submitted to avoid abandonment.

- *Substitute drawings in compliance with 37 CFR 1.84 because:*
 - *more than one figure is present and each figure is not labeled "Fig." with a consecutive Arabic numeral (1, 2, etc.) or an Arabic numeral and capital letter in the English alphabet (A, B, etc.)(see 37 CFR 1.84(u)(1));*

I tried to contact the USPTO by phone a number of times so far, only to get transferred to voice mail systems. Although I did leave the message and my contact details I did not receive any feedback yet... and the deadline for my response is approaching.

I have two questions:

1) I originally did not include "Fig N" labels as a part of the image files as I thought that XML markup/labeling is all they needed. I have prepared new image files that contain these labels. Was this the action that was requested from me?

2) How do I send these new images to USPTO. The letter does not mention anything about this. I was unable to find any options in electronic filing software that would let me send updates for my utility patent application - I could only create new patent applications. Please, tell me how would you like these new images to be delivered to you (other software package, some existing option, e-mail or something else)

I would appreciate any help as I am just an individual that has this idea and this is my first patent application. I have to respond by April 13, 2002 - my time is running out.

Thank you for your time,

Best regards,

Aleksandar Susnjar

P.S. I have already sent both oath and declaration forms (completed and notarized) via regular mail. How can I check whether the package arrived? I tried the "Patent Application Information Retrieval" but it does not recognize my application number 09/683,685.... it says that the number is invalid.

Are there any plans to release a version of PASAT for Microsoft Office XP + Microsoft Windows XP?
